

IMAGEMAKER360 TOUR SYNDICATION

AS EVERYONE KNOWS, EXPOSURE IS KEY... but we also know that the work involved with adding your listings and/or tours to all the various property websites can be a very tedious and time consuming task. Realizing how valuable your time is, we have established posting relationships with popular and up-and-coming real estate and classifieds web portals so that you no longer have to post your listings and/or tours one by one. Imagemaker360 can automatically submit on your behalf -- and at no additional cost -- property listings enhanced with Imagemaker 360 Tours to leading-edge websites such as:

If you are a Realtor.com Showcase member, there is no charge to have your tours automatically posted to Realtor.com (the posting fee for Non-Showcase members is \$24.95). Realtor.com links to approximately 600 sites.

While Craigslist does not allow auto-posting of ads onto their site, we have created a very quick and easy no-cost method for you to upload the customizable virtual tour property brochure onto Craigslist. This brochure will be shown as a stand-alone, html ad and features an interactive link to the tour.

You can also easily share your tours on numerous social media sites, including (but not limited to):

All Imagemaker360 Video Formatted tours will automatically be submitted to YouTube.com.

By going to Tubemogul.com, you can distribute your video formatted tours (and track tour traffic) to at least 25 other video sites, such as:

Please keep in mind that some sites do have posting limitations and/or restrictions, and some offer no tech support; as such, we cannot guarantee that all properties/tours can be posted to all sites. Sites also come and go, so this list may change at any time.

For even more exposure, don't forget that your Imagemaker360 tour can be used as a detailed, stand-alone Single Property Website. We purchase the domain name, incorporate the tour onto this newly created site, and host the Single Property Website and tour for one full year. The cost for this service is \$29.95.
